Exploring & Promoting future focused schooling

2022

WHAT WE DO

We support future focused leaders to explore and promote future focused education. We do this by building a community of innovative schools and leaders who, as a part of a collective, seek to create educational experiences that reflect an interconnected and changing world, whereby learners are creators and makers of their journey.

We build this community through our Professional Learning for Leadership Teams, Live Online Events for all staff, State-based School Tours, and International Study Tours.

- Want to innovate but are not sure exactly where to start.

Yes! Past events can be found here [Future Schools YouTube Channel](#) . *Don't forget to subscribe!*

3) I'm a Principal and I can't make it to the 'Leading an Adaptive School Culture' Series in Semester one, is it still worth becoming a member School?

Yes! We host the series every semester (six sessions each). We recognise how busy leadership teams, so all *sessions recorded and can be viewed at a later date*. In addition to the **Leading an Adaptive School Culture (six-part series)**, you and your staff also have access to:

5) How do I manage my membership?

If you have any questions about your membership or wish to advise of a change of leadership or new appointment at your School, email Carly at info@futureschools.education with your name, position, School and email address and we will be in touch.

6) Can you tell me more about the State-based Tours?

Each term we also host a two day State Tour to visit innovative schools in different states across Australia. On each tour we aim to visit at least three schools and have a group dinner on the first evening. For more information on our next upcoming tour, send an enquiry to jen.buchanan@futureschools.education

In 2023 we will return to hosting International Tours of some of the world's most innovative schools. We are in the planning stages for a 2023 Study Tour to Estonia, The Netherlands and Finland.
