

# FUTURE SCHOOLS WEBINAR

**Tuesday 29th March 4pm - 5pm AEDT**

In conversation with entrepreneur, educator and founder

## NICOLE DYSON

Nicole is a globally recognized expert and practitioner in project-based learning and youth entrepreneurship. She is the founder of Future Anything, an award-winning, curriculum-aligned entrepreneurship program for high school students, the founder of YouthX, Australia's only startup accelerator program for school-aged entrepreneurs, and the founder of Catapult Cards, a design thinking tool for corporates and classrooms.

In this webinar conversation we will explore how her company Future Anything is working with schools across Australia to realise the employment and entrepreneurship ambitions of young people and how these opportunities are increasingly needed in the Future of Work.

Nicole passionately pushes the boundaries around the future of our education system, and believes the best education empowers young people to bend the future; one youth-led idea at a time.
