VIRTUAL SCHOOL TOUR

HUNTER SPORTS HIGH SCHOOL

Newcastle NSW

Tuesday 17th May
4:00-5:00pm AEST

Continuing with a theme of looking at Inquiry Based Learning in May, we head to Hunter Sports High School in Newcastle for a Virtual School Tour and to learn about the innovative T2 Program.

In the T2 program, students participate in project based learning which is built around their career ambitions and interests. Students are encouraged to engage in an internship during school hours on a regular basis and to collaborate with mentors. This allows for many experiences and opportunities, for example to gain an apprenticeship, traineeship, SBAT or employment, enabling a smoother transition from school to work.

This program provides the opportunity for students to work on authentic real world tasks involving developing the skills and knowledge to equip students for future vocational/educational pathways.
