## VIRTUAL SCHOOL TOUR

### MUSIC INDUSTRY COLLEGE

Queensland

Tuesday 3rd May

4:00pm - 5:00pm AEST

Music Industry College delivers an innovative educational program that empowers young people to succeed in the music industry and life. Music Industry College believes that each student is unique in personality, intelligence, ability, learning style, skills and knowledge. The uniqueness of each individual needs to be identified, acknowledged, encouraged, developed and expressed within the college educational setting. Music Industry College believes that true learning will only take place when the college staff and curriculum meets the student's real interest and educational needs. The experience of MIC has shown that by providing a "real interest" integrated educational program students are inspired and motivated to successfully complete and excel in their senior studies.

Join Future School and Principal Brett Wood for a Virtual Tour of this very unique school! Brett established Music Industry College when he saw the magnetic power that music has to engage disenfranchised young people. He has a passion for mentoring young people and helping them achieve their potential in their field of choice.

"I teach because I enjoy unlocking the potential in young people. To witness the growth and development of the students I work with is my greatest reward"
