

Future Schools

VIRTUAL SCHOOL TOUR

SEDA COLLEGE WA
Tuesday 2nd August
4:00-4:45pm AEST

SEDA College WA is an Independent Secondary School for students in Years 11 and 12. The College partners with the biggest sporting brands and organisations in Western Australia facilitating real life industry experiences and student opportunities.

This combined with applied industry based learning approach allows students to acquire the skills needed to support future educational and employment pathways.

It was recently announced that SEDA College WA will be offering a Construction and Trade Program, in collaboration with BGC (Australia) Pty Ltd. In this virtual school tour, Future Schools will talk with Principal Rocky Collins on developing external partnerships with industry.

The conversation will explore how a partnership with BGC will allow students to gain both a formal education and immersion into the building and trade industry. Through this program, students will graduate with both VET and WACE qualifications in Year 12.

We will also discuss the 'one teacher, one classroom' model, which allows teachers to take on a true mentoring approach, where they walk alongside and support the individual journey of students as they complete their secondary education
