Workshop Design Thinking with d.school

In partnership with Macquarie College, we are thrilled to offer our next workshop in Design Thinking hosted by the faculty of d.school Stanford.

Through hands-on challenges and collaborative exercises, participants will learn and experiment with design thinking frameworks and tools.

Backed by over 30 years of research, the faculty from Stanford has established a clear correlation between design thinking and academic excellence.

WAITLIST

[Register here for future workshops](#)

This workshop will be led by Laura McBain, educator and the co-director of the K12 lab at the Stanford d.school. Prior to the d.school, Laura worked for 20 years at High Tech High, serving as the Director of External Relations and Principal of two school sites and a founding teacher.

This is a fantastic opportunity to accelerate your innovation and receive professional training for world-leading experts.

Angela Maiers

Wed 26th July | 7.30am–8.15am (AEST)

Hosted by Dave Runge

Webinar with world-renowned author, entrepreneur, international keynote speaker, and educator Angela Maiers

Topic: Mattering is the Agenda

Mattering a universal human need. We cannot capture the minds of our students, colleagues, employees, and customers if we do not first capture their hearts. You matter is not a statement of inspiration. It is not a project, or strategy, an event, or an item on the agenda. It is the agenda.

Date Wed 26th July
Time 7:30am – 8:15am (AEST)
Where Online

Access Angela's work on her website: <https://angelamaiers.com>

About

Angela Maiers is a world-renowned author, entrepreneur, international keynote speaker, and educator, whose transformative message of the importance of mattering has the power to unleash the genius in us all.

Angela's following includes leaders in business, education, government, and non-profit organizations, which grew out of response to a TEDtalk she gave in 2011 that went viral. It focused on two words: You Matter. Her speeches, workshops, and books leave audiences resonating with the power to transform.

OPEN EVENT

Webinar with Dave Runge

Topic: How to Build an Adaptive Education System.

As our world becomes ever more complex and the pace of change continues to accelerate, the education system has a pivotal role in equipping society with the skills and capacities to adapt, grow and shape this emerging future.

We need an education system that, alongside core literacy and numeracy development, teaches students to think critically, problem-solve, collaborate and most importantly, be resilient and adaptable.

The challenge seems not to be articulating the 'why' for system evolution but rather providing a pathway to the 'how'.

In this webinar, Dave will explore key themes of his latest paper on Building an Adaptive Education System. Your questions are encouraged.

Date Tues 1 August
Time 4:30pm – 5:15pm (AEST)
Where Online

Session 1 of 2

Thought Leader in Residence: Sarah Martin | Foundation Principal of Stonefields school. Hosted by Peter Hutton – part 1

Stonefields School

High levels of collaboration operate between teachers in a learning hub to best serve 3 times as many learners and leverage teacher strengths.

Featuring a unique open plan learning environment, The Education Review team summarised Stonefields as a “highly inclusive and innovative school for students in Years 1 to 8. Students experience a well designed curriculum with exciting learning experiences that promote their independence and collaborative skills”.

Webinar with passionate education futurist **Gabriel Rshaid**

Topic: Chat GPT and impact of AI on education

In this session, Gabriel will discuss sections of his book: [The AI Powered School](#)

ChatGPT and Generative A.I. apps have taken the world by storm and will inexorably revolutionize the way we learn. The AI-Powered School provides a comprehensive guide to applying AI in the classroom, including detailed examples and prompts to make the most of this disruptive but potentially very positive innovation.

Gabriel is the co-founder and Director of The Learnerspace, a company whose mission is to help build the future of learning. He is also co-founder of The Global School, the first school of its type in Latin America, attempting to make educational change a reality.

Formerly Headmaster of St. Andrew's Scots School in Buenos Aires, Argentina, the oldest bilingual school in the world he is a passionate educational futurist who is intent on sharing his belief that it is the best time in history to be an educator.
